❶ Further information on adjustable contacts can be found under “Auxiliary Contacts” in the CA5 Technical Section.

❷ Contactor comes standard with one 4-pole aux contact block.

❸ In addition to one standard two-pole auxiliary contact block (CA5-EB11), CA5-1000 & 1200 contactors are equipped from the factory with a special two pole auxiliary contact block (CA5-EB11DC). One of the poles is used for operation of the Feeder Group/Coil mechanism, the other NC contact is available for use. Two additional aux contact blocks may be added for a total of four.
